---

Hi Doug,

I would love to talk next week to plan further discussions and get a feel for whether we are moving in the right direction. My schedule is actually totally clear next week (aside from being out on MLK Day) so I can keep some time set aside whenever works for you guys. My number is 518-473-2048.

Thanks,  
Darci

Hello Darci, I'm the Chief of the Water Compliance Branch here in the Region and through some messages back and forth between Andy Beers and my Regional Administrator, Judith Enck, you have been identified as the contact person for us to work with in scheduling some discussions on addressing the large capacity cesspools. Ms. Enck also let us know that you all are in the process of developing a schedule for the 74 cesspools that you have identified.

I think our discussions would be more productive if we had them following the development of a schedule so I wanted to know if there was an estimate on when the schedule may be completed.

Maybe we could talk next week and come up with a plan, so please send me a number and some idea on what would be a good time to talk next week and we will give you a call.

Thanks

Doug McKenna, Chief  
Water Compliance Branch  
Division of Enforcement and Compliance Assistance, EPA 2
